WLII – Meets World Language II Requirement

<b>ACCOUNTING I</b> (VPAA) (OLE) (SMR) – V130	10, 11, 12	1.0 credit
---	------------	------------

Accounting I is a one-year course which covers the accounting cycle beginning with the opening entry in the journal, posting to the ledger, preparing a trial balance, a worksheet, and financial reports or statements of a business. A practical project using actual business forms to reinforce concepts of the accounting cycle and procedures is also used. Business students may qualify for college credit through an articulation agreement.

<b>ACCOUNTING II (Computerized Accounting)</b> (VPAA) (OLE) (SMR) (WLII) – V135	11, 12	1.0 credit
---	--------	------------

PREREQUISITE: "C" average in Accounting I

Accounting II is a course designed for students who intend to pursue a career in business. The course begins with a review of the accounting cycle. The remainder of the course teaches advanced accounting techniques and the application of these techniques to management decisions. An introduction to basic computerized accounting procedures is covered. Practical computerized projects, using actual business forms, are used to reinforce concepts of the accounting cycle and procedures. Business students may qualify for college credit through an articulation agreement.

<b>CYBERSECURITY</b> (VPAA) - V546 (Pending Board Approval)	11,12	1.0 credit
---	-------	------------

Cybersecurity focuses on the evolving technological environment with an emphasis on securing personal, organizational, and national information. The course explores the broad topic of cybersecurity in a way that personally matters to an individual. Students will learn how to protect their personal data and privacy online and in social media, and why more and more IT jobs require cybersecurity awareness and understanding. Students will investigate the high-skills, high-wage, and in demand career opportunities in the vast field of cybersecurity.

<b>FINANCE</b> (VPAA) (OLE) (SMR) - G135	10, 11, 12	0.5 credit
--	------------	------------

This course is designed to give students the business financial management and investing skills they will need after high school. Students will explore financial career decisions, fundamentals of investing, personal financial protection, and financial management for business. Students will use technology to assist their learning about stocks, bonds, and mutual funds. They will develop an investment portfolio and a financial plan. Students will complete hands-on simulations on financial topics using Microsoft Excel and the Internet.

<b>MARKETING I</b> (VPAA) (OLE) (SMR) - V150	10, 11, 12	1.0 credit
--	------------	------------

Marketing I will introduce students to the functions and foundations of marketing. This is a hands-on project based course that encourages independent thinkers as well as student collaboration. Presentation skills, creativity, soft skills, and mock interviews are part of this course to help prepare students for college and career.

**The marketing class will cover the following areas: Marketing, Selling, Economics, Communication Skills, Promotion and Career Portfolios.**

Marketing helps prepare students for college level course work as well as immediate entry into the world of work. Students enrolled in the Marketing program will be able to participate in DECA, Association of Marketing students. DECA gives students the opportunity to compete in marketing areas while building self-confidence and networking with business professionals. Participation in student organizations is an instant resume enhancement as well as an incentive on college applications. Marketing I students may qualify for college credit through an articulation agreement.

<b>MARKETING II</b> (VPAA) (OLE) (SMR) (WLII) – V160	11, 12	1.0 credit
--	--------	------------

PREREQUISITE: Marketing I

Marketing II is an upper level marketing course that will prepare students for the collegiate level. This is a hands-on project based course that will further the foundational concepts covered in Marketing I as well as introduce advanced topics of study.

**Marketing II topics that are covered are: Product Service Management, Marketing Research, Promotion/Advertising, Pricing, Human Resources and Professional Career Skills.**

Students will explore different career opportunities and college programs available in the business field through the use of guest speakers. DECA is STRONGLY encouraged for students enrolled in Marketing II. Marketing II students may qualify for college credit through an articulation agreement.

**MS OFFICE (MCAS) (VPAA) (OLE) (SMR) (WLII) - V245** 10, 11, 12 1.0 credit

In Microsoft Office student will learn to use basic and advanced features of Microsoft Office 2016 as well as other essential computing concepts. Students will have the opportunity to demonstrate their proficiency by taking the industry recognized Microsoft Office Certification Tests in Word, Excel and PowerPoint. The second semester of Microsoft Office will be primarily project based; allowing students to utilize specific skills covered in the first semester through practical application and a variety of business simulations. Additional business management topics including, but not limited to, international business, human resources, and ethics will be covered. Microsoft Office students may qualify for college credit through an articulation agreement.

**RETAIL STORE OPERATION (VPAA) (OLE) – V170** 10, 11, 12 1.0 credit

**PREREQUISITE:** Successful completion of (or concurrently enrolled in) Marketing II or Entrepreneurship

This course is designed to give the student training in basic store operations through actual work experience in the student-operated store. Areas of study include display and merchandising, operating a point of sale, inventory control, proper sales procedures, stocking/ buying goods, calling vendors and market research. Students are enrolled based on a written application, a personal interview, and the store director's approval.

**SMALL BUSINESS/SPECIALTY MARKETING (VPAA) (OLE) (WLII) – V180** 10, 11, 12 1.0 credit

This program presents small business operations and specialty marketing as a career path. Students will focus in on the following areas:

- Business Operations
- Financial Start-Up
- Fashion Marketing
- Hospitality Marketing
- Product Service Management
- Human Resources
- Sports Marketing
- Travel/Tourism Marketing

Students will learn how to run a small business and what it takes to become a successful entrepreneur. They will create a business plan; understand the communication skills necessary to operate a business while working in conjunction with specialty marketing topics. Students will have the opportunity to join and compete in a DECA. Students will have the opportunity to take Retail Store Operations for the hands on a school based enterprise experience.

**WEBSITE DEVELOPMENT I (VPAA) (OLE) (SMR) – V250** 10, 11, 12 1.0 credit

This is a hands-on, project-oriented class. Students will have the opportunity to explore the power of internet communications, create their own websites using a variety of tools, and earn the industry-recognized Adobe Dreamweaver CS6 certification. Students will develop real world technological skills while engaging in problem solving and higher-level thinking. The course will begin with basic web concepts and then move into coding such as HTML and CSS. Once basic code is mastered students will move into Adobe CS6 and begin developing advanced web components and sites using Dreamweaver and Photoshop. Website Development students may qualify for college credit through an articulation agreement.

PREREQUISITE: Successful completion of Web Page Development I

This project-based course will provide a comprehensive look at the business side of website design, while preparing students for the industry-recognized Adobe Photoshop CS6 certifications. Students will utilize the technical skills acquired in Website Development I to improve their design skills and creativity. Additional advanced topics in CSS, Dreamweaver, Flash, Fireworks and Photoshop will be explored. Emphasis will be placed on meeting customer needs, assessing end-user needs, effective design techniques, search engine strategies, and e-commerce strategies. In addition to working on the school website, students will work in web design teams to develop websites for school stakeholders and/or community businesses. Website Development II students may qualify for college credit through an articulation agreement.
