

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2009 – 2010 educational progress for Richard J. Duncan Elementary School. The AER demonstrates our progress toward implementing our district's vision of student achievement and meets all of the federal and state reporting guidelines for Michigan schools. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact the school principal for assistance.

The AER is available for you to review electronically by visiting the following web site [http://www.uticak12.org/schools/sc\\_duncan.asp](http://www.uticak12.org/schools/sc_duncan.asp) or you may review a copy at your child's school.

For 2009 – 2010, Richard J. Duncan Elementary School made Adequate Yearly Progress (AYP) in English language arts and mathematics. Our school enjoyed a very successful year and we greatly appreciate the support from our school community. The reports below demonstrate our commitment to student achievement and the continuous improvement in our planning efforts.

### **School Improvement Plan**

The community at Duncan Elementary can be extremely proud of the academic performance of our students. Students continued to show impressive achievements in meeting the rigorous goals that staff set for student achievement, based on the UCS Indicators of Excellence school improvement plan and our school's Tier II goals. Comparison charts from a variety of data indicated strong academic proficiency levels at all grade levels. As an organization, we recognized that ongoing success demands that we remained focused on continuing to move our school forward to strengthen the foundation of learning for each child. A school-wide action plan provided a cohesive vision for writing and mathematics that enabled staff to move ahead with direction and purpose, while consistently monitoring the achievement of students. The entire staff took ownership and responsibility for its implementation and success.

Our data teams examined writing assessment gains over the past year, which corroborated the benefits of daily use of *Writers Workshop* and *6+1 Traits* to improve student writing proficiency in K-6 classrooms. Students were taught the explicit language of the *6+1 Traits* which provided a common language for teachers and students to communicate about the characteristics of writing and established a clear vision of what quality writing looks like. With the use of high quality anchor papers, students learned to identify essential components of good writing and edit their personal writing pieces. The educational staff was able to focus instruction and communicate to students what was working well in their writing, allowing them to take new steps towards more complex writing. Common grade level assessments provided a platform for constructive dialogue within each grade level, as well as building-wide. Significant growth in student writing performance can be attributed to classroom instruction closely aligned to the differentiated needs of each child.

School improvement efforts were extended to focus on K-6 mathematics. Grade level content expectations were aligned to deepen mathematical knowledge. Concrete learning experiences, utilizing hands-on materials, were developed to strengthen the concepts taught and assist students with constructing meaning. Students learned mathematical ideas by actively relating physical materials, pictures, and diagrams to mathematical ideas, by reflecting on and clarifying their own thinking, by relating everyday language to mathematical ideas and symbols, and by discussing mathematical ideas with peers. Opportunities for students to formulate and solve problems directly related to the world around them deepened within the curriculum, connecting the structures of mathematics to every aspect of their lives. School improvement efforts focused on providing challenging curriculum that led to opportunities for advanced course work at every grade level, including junior high level programming at the sixth grade level.

### **Student Enrollment**

Students attend Richard J. Duncan Elementary School based on the attendance areas serviced by our school community. A number of Utica students in other attendance areas enroll in our school based on the district's open enrollment process and nonresident students may attend through the Schools of Choice program.

### **Specialized Programs**

#### Utica Center for Math Science and Technology

The Utica Center for Mathematics, Science and Technology is designed to bring advanced students with special talents and interests together with leading-edge technology. The Center utilizes an advanced curriculum for grades 9-12 which serves to inspire, challenge, and prepare students to pursue careers in mathematics and science. The Center follows the Utica tradition of providing the finest instruction and innovation. Students are selected based on their academic record and performance on tests of aptitude and achievement.

#### Utica Academy for International Studies

This is a four-year high school academy designed to prepare students for completion of the International Baccalaureate (IB) Diploma Program. All students are expected to take part in artistic activities (*creativity*); sports or physical activity (*action*); and community or social service projects (*service*). This unique curriculum and the personal growth it requires of its students will provide them a mobility and adaptability that prepare students to successfully lead in the global workforce of the 21<sup>st</sup> century.

#### Utica Center for Science and Industry

The Center for Science and Industry is a half day shared time program that provides 9<sup>th</sup> through 12<sup>th</sup> grade students with a variety of cutting-edge Career and Technology Education taught in an integrated manner. Along with core math and English classes, students select from electives which will support one of three career strands: 1) Engineering and Technology, 2) Mechatronics, or 3)

Multi-Media Technology. The CSI is project based and provides students with a wide array of experiences with professionals from business and industrial partners.

Project CLIME (Critical Language Initiative in Mandarin Education)

Project CLIME is focused on developing a strategic initiative to promote a K-12 foreign language program within Utica Community Schools. The goal will be accomplished by establishing a grades K-6 partial immersion Mandarin program at Oakbrook Elementary School feeding into a 7-12 secondary target language program housed at Heritage Junior High School, Stevenson High School and the Utica Academy for International Studies.

## **Core Curriculum**

All the schools in Utica Community Schools offer students a comprehensive and rigorous academic program that meets and exceeds all state and federal standards. Our schools follow the Michigan Grade Level Content Expectations (GLCE) and the Michigan High School Content Expectations (HSCE). These standards can be accessed on <http://www.macomb.k12.mi.us/utica/info/>. The district's vision document entitled Indicators of Excellence can be accessed at: <http://www.uticak12.org> under the district information tab, the annual reports link.

## **District Assessments**

Utica Community Schools not only looks at state assessments but we go above and beyond in monitoring the progress of our students. The following assessments are also given at each of the different levels to follow each student's academic progress.

**Michigan Literacy Progress Profile (MLPP)** is given in grades K-6 to assess students' progress in reading comprehension, phonics and fluency.

**Dynamic Indicators of Basic Early Literacy Skills (DIBELS)** is used in grades K-6 to monitor a student's reading growth on a more frequent basis. These assessments are quick snapshots of a child's improvement in literacy.

**EXPLORE** is a preliminary ACT assessment given to all ninth grade students in Utica Community Schools to help students prepare for high school coursework, higher education and ACT success.. It assesses students' skills in English, reading, mathematics and science.

## **Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT)**

The PSAT/NMSQT is a standardized test given to all 10<sup>th</sup> graders in Utica Community Schools. It measures a student's skills in the areas of critical reading, math problem-solving and writing skills. It also gives the student a chance as an 11<sup>th</sup> grader to take the test and possibly qualify for the National Merit Scholarship program.

## **Parent/Teacher Conference Attendance**

Percentage     101%

We are pleased to provide this annual education report to our school community. The information contained in this report demonstrates our continued efforts to ensure every student achieves in our school. This report, however, only tells a small part of our success story. Every day our staff is continually finding new ways to enhance teaching and learning and engage our students in their education. We invite you to continue to be active participants in your child's education by volunteering in the classrooms, serving on our parent groups, and working closely at home with your students on their assignments.

Richard J. Duncan Elementary School is fortunate to be serviced by a community that cares so deeply about education. Thank you again for your continued support of our students and the Utica Community Schools.

Sincerely,

Sharon Coil  
Principal

## 2009-10 School-Level Accountability (AYP) Status Reporting for Macomb ISD, Utica Community Schools, Richard J. Duncan Elementary

### School AYP Status

Title 1 Status	AYP ELA/Reading Status	AYP Mathematics Status	AYP Overall Status	Education Yes Report Card Grade	School Improvement Status	Years in Improvement
No	Met	Met	Met	A	N/A	0

## December, 2009 School-Level Teacher Quality Reporting for Macomb ISD, Utica Community Schools, Richard J. Duncan Elementary

	Other	B.A.	M.A.	Ph.D
Professional Qualifications of All	0	4	42	0

	Other	B.A.	M.A.	Ph.D
Public Elementary and Secondary School Teachers in the School				

Professional Qualifications are defined by the State and may include information such as the degrees of public school teachers (e.g., percentage of teachers with Bachelors Degrees or Masters Degrees) or the percentage of fully certified teachers

Percentage of Public Elementary and Secondary School Teachers in the School with Emergency Certification	0%
	<b>School Aggregate</b>
Percentage of Core Academic Subject Elementary and Secondary School Classes not Taught by Highly Qualified Teachers	0%
