

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2009 – 2010 educational progress for Malow Junior High School. The AER demonstrates our progress toward implementing our district's vision of student achievement and meets all of the federal and state reporting guidelines for Michigan schools. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact the school principal for assistance.

The AER is available for you to review electronically by visiting the following web site http://www.uticak12.org/schools/sc_malow.asp or you may review a copy at your child's school.

For 2009 – 2010, Malow Junior High School made Adequate Yearly Progress (AYP) in English language arts and mathematics. Our school enjoyed a very successful year and we greatly appreciate the support from our school community. The reports below demonstrate our commitment to student achievement and the continuous improvement in our planning efforts.

School Improvement Plan

Increase the number of students scoring proficient or higher on EXPLORE assessment subtests and increase the number of students earning a composite score of proficient or higher on EXPLORE. Demonstrations of continued student progress across the curriculum, with emphasis on math, reading, science, and English represent a critical and inherent aspect of this goal.

Increase the number of students scoring proficient or higher on the school writing assessment and demonstrate an increase from 86% to 93% on the Fall 2010 eighth grade math MEAP.

As it relates to Malow's Tier II Indicators, 2009-2010 represented a successful year for our students. When comparing cohort groups, EXPLORE test results show 57% of Malow's ninth grade students register as proficient compared to 51% in 2008-2009. Based on scores available in Data Director, 67% of students demonstrated improvement this year with ACT-style writing. While our 2009 math MEAP scored dipped slightly, the math department launched strategies buoying math progress.

Malow's EXPLORE commitment commenced by examining College Readiness Standards and assigning each strand, based on anticipated ability, to individual grade levels and appropriate curricular areas. In cooperation with our feeder schools, Malow assigned the lowest skill set to the elementary.

Teachers participated in a subject-specific practice EXPLORE session and, after completion, identified four areas of concern, aligned the questions with the corresponding curricular standards, and drafted instructional activities fostering understanding of key concepts. From these, Malow staff extracted a skill set requiring additional focus and developed an EXPLORE Action Plan. After implementation of the instructional strategies, teachers reported successes and failures predicated on predetermined evaluation criteria.

English and social studies teachers added recurrent instruction in counterpoint development and ACT-style persuasive writing. English teachers consistently used the ACT rubric to assess writing and implemented Close and Critical Reading strategies to develop and articulate mature, analytical thinking about a topic or a text. As a building, Malow instituted three school-wide writing days. Each student, by grade, responded to an ACT-style prompt gauging improvement throughout the year.

In Math, teachers broadened the sharing of instructional strategies between classrooms.

While objective evidence supporting the effectiveness of Malow's EXPLORE Action Plan remains unavailable until Fall 2010, departments shall continue using EXPLORE/ACT "style" questions, demanding increased cross-curricular application of skills, and revising our Action Plans as necessary.

Challenges include assisting students in the reconstructing of subject-specific practice, skills, and knowledge in unique situations across the curriculum. In addition, helping teachers throughout the building grow their skills with and their confidence in using and assessing ACT-style persuasive writing. The increased use of Data Director frequently and consistently will allow for objective analysis of student understanding, maximizing the ability to design instruction and bolsters student achievement.

Malow proposes continuing the identification and discussion of ACT/EXPLORE strands presenting challenges; designing and implementing strand specific instruction and more cogent teaching strategies; and proffering professional development boosting educator adeptness with ACT-style writing.

Student Enrollment

Students attend Malow Junior High School based on the attendance areas serviced by our school community. A number of Utica students in other attendance areas enroll in our school based on the district's open enrollment process and nonresident students may attend through the Schools of Choice program.

Specialized Programs

Utica Center for Math Science and Technology

The Utica Center for Mathematics, Science and Technology is designed to bring advanced students with special talents and interests together with leading-edge technology. The Center utilizes an advanced curriculum for grades 9-12 which serves to inspire, challenge, and prepare students to pursue careers in mathematics and science. The Center follows the Utica tradition of providing the finest instruction and innovation. Students are selected based on their academic record and performance on tests of aptitude and achievement.

Utica Academy for International Studies

This is a four-year high school academy designed to prepare students for completion of the International Baccalaureate (IB) Diploma Program. All students are expected to take part in artistic activities (*creativity*); sports or physical activity (*action*); and community or social service projects (*service*). This unique curriculum and the personal growth it requires of its students will provide them a mobility and adaptability that prepare students to successfully lead in the global workforce of the 21st century.

Utica Center for Science and Industry

The Center for Science and Industry is a half day shared time program that provides 9th through 12th grade students with a variety of cutting-edge Career and Technology Education taught in an integrated manner. Along with core math and English classes, students select from electives which will support one of three career strands: 1) Engineering and Technology, 2) Mechatronics, or 3) Multi-Media Technology. The CSI is project based and provides students with a wide array of experiences with professionals from business and industrial partners.

Project CLIME (Critical Language Initiative in Mandarin Education)

Project CLIME is focused on developing a strategic initiative to promote a K-12 foreign language program within Utica Community Schools. The goal will be accomplished by establishing a grades K-6 partial immersion Mandarin program at Oakbrook Elementary School feeding into a 7-12 secondary target language program housed at Heritage Junior High School, Stevenson High School and the Utica Academy for International Studies.

Core Curriculum

All the schools in Utica Community Schools offer students a comprehensive and rigorous academic program that meets and exceeds all state and federal standards. Our schools follow the Michigan Grade Level Content Expectations (GLCE) and the Michigan High School Content Expectations (HSCE). These standards can be accessed on <http://www.macomb.k12.mi.us/utica/info/>. The district's vision document entitled Indicators of Excellence can be accessed at: <http://www.uticak12.org> under the district information tab, the annual reports link.

District Assessments

Utica Community Schools not only looks at state assessments but we go above and beyond in monitoring the progress of our students. The following assessments are also given at each of the different levels to follow each student's academic progress.

Michigan Literacy Progress Profile (MLPP) is given in grades K-6 to assess students' progress in reading comprehension, phonics and fluency.

Dynamic Indicators of Basic Early Literacy Skills (DIBELS) is used in grades K-6 to monitor a student's reading growth on a more frequent basis. These assessments are quick snapshots of a child's improvement in literacy.

EXPLORE is a preliminary ACT assessment given to all ninth grade students in Utica Community Schools to help students prepare for high school coursework, higher education and ACT success.. It assesses students' skills in English, reading, mathematics and science.

Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT)

The PSAT/NMSQT is a standardized test given to all 10th graders in Utica Community Schools. It measures a student's skills in the areas of critical reading, math problem-solving and writing skills. It also gives the student a chance as an 11th grader to take the test and possibly qualify for the National Merit Scholarship program.

Parent/Teacher Conference Attendance

Number 3704

We are pleased to provide this annual education report to our school community. The information contained in this report demonstrates our continued efforts to ensure every student achieves in our school. This report, however, only tells a small part of our success story. Every day our staff is continually finding new ways to enhance teaching and learning and engage our students in their education. We invite you to continue to be active participants in your child's education by volunteering in the classrooms, serving on our parent groups, and working closely at home with your students on their assignments.

Malow Junior High School is fortunate to be serviced by a community that cares so deeply about education. Thank you again for your continued support of our students and the Utica Community Schools.

Sincerely,

Robert Hock
Principal
