

## *Duncan Elementary*

---

June 2011

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2010-2011 educational progress for Duncan Elementary. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact the school principal for assistance.

The AER is available for you to review electronically by visiting the following web site. Insert <http://www.uticak12.org> and follow the path to Duncan Elementary or you may review a copy at your child's school.

For 2010-2011, Duncan Elementary made Adequate Yearly Progress (AYP) in English Language Arts and Mathematics. Our school enjoyed a very successful year and we greatly appreciate the support from our parents, staff, and community. The reports below demonstrate our commitment to student achievement and the continuous improvement in our planning efforts.

### **School Improvement Plan**

#### Duncan Elementary School's Tier II Indicators:

- ✎ Increase the number of students that are proficient on the district-wide writing assessment and the MEAP Writing assessment.
- ✎ Increase the number of students that are proficient on the district mathematic assessment and the MEAP Mathematic assessment.
- ✎ Increase the number of students that are proficient on the district Rigby assessment and the MEAP Reading assessment.

#### Duncan Elementary School's Tier III Indicators:

Duncan Elementary had a successful 2010-2011 school year. Students showed measurable growth in meeting the rigorous goals that staff set for student achievement, based on the UCS Indicators of Excellence school improvement plan and our school's Tier II goals.

Duncan data teams utilized a variety of resources to analyze data, including DataDirector, MEAP summary reports, Golden Package, and District benchmarks and classroom assessments. Teachers meet on a regular basis in grade-level data teams to analyze data and assist in planning classroom lessons and intervention strategies. District and quarterly assessments were administered and analyzed and instructional changes were made based on the results.

In reading, the Response to Intervention (RtI) programs was implemented for kindergarten through sixth grade students. Small group instruction was provided three to five times each week by support staff. The team progress monitored students using the Dynamic Indicators of Basic Elementary assessments to determine growth and to plan instruction accordingly. A school-wide initiative on informational reading focused the staff on guided highlighting. Literacy lessons in K-6 classrooms reinforced critical analysis skills that supported a deeper understanding of the text while reading.

Efforts were extended to focus on K-6 Mathematics. Teachers have implemented concrete learning experiences, utilizing hands-on materials to enable students to strengthen the concepts taught and assist students with constructing meaning. The staff has continued efforts to increase opportunities for students to develop higher level mathematic skills by providing more advanced studies.

In writing, our teams examined writing assessments over the past year to establish a clear vision of what quality writing looked like. Vertical and horizontal alignment of instruction, grade level data teams, and collaboration on scoring of student assessments continued throughout the school year. Common scoring of anchor papers and posters for non-negotiable were developed. Daily Writer's Workshop supported the development of the 6+1 Writing Traits and provided a common language for teachers and students to communicate about the characteristics of writing.

The Duncan Elementary staff received professional development with implementing guided highlights in K-6 classrooms. Efforts focused on developing a consistent framework for critical analysis of informational text. The staff connected the informational reading efforts with effective instruction for informational writing. Kindergarten through sixth grade teachers also worked with district personnel to learn about the new Common Core Mathematic Standards and their future implementation.

Our school will continue to stay focused on providing challenging curriculum for students to become college and career ready and student achievement expectations will align with the newly adopted Common Core State Standards.

### **Student Enrollment**

Students attend Duncan Elementary School based on the attendance areas serviced by our school community. A number of Utica students in other attendance areas enroll in our school based on the district's open enrollment process and non-resident students may attend through the Schools of Choice program.

### **Specialized Programs**

Utica Center for Math, Science and Technology

The Utica Center for Mathematics, Science and Technology is designed to bring advanced students with special talents and interests together with leading-edge technology. The Center utilizes an advanced curriculum for grades 9-12 which serves to inspire, challenge, and prepare students to pursue careers in mathematics and science. The Center follows the Utica tradition of providing the finest instruction and innovation. Students are selected based on their academic record and performance on tests of aptitude and achievement.

### Utica Academy for International Studies

This is a four-year high school academy designed to prepare students for completion of the International Baccalaureate (IB) Diploma Program. All students are expected to take part in artistic activities (*creativity*); sports or physical activity (*action*); and community or social service projects (*service*). This unique curriculum and the personal growth it requires of its students will provide them a mobility and adaptability that prepare students to successfully lead in the global workforce of the 21<sup>st</sup> century.

### Utica Center for Science and Industry

The Center for Science and Industry is a half day shared time program that provides 9<sup>th</sup> through 12th grade students with a variety of cutting-edge Career and Technology Education taught in an integrated manner. Along with core math and English classes, students select from electives which will support one of three career strands: 1) Engineering and Technology, 2) Mechatronics, or 3) Multi-Media Technology. The CSI is project based and provides students with a wide array of experiences with professionals from business and industrial partners.

### Project CLIME (Critical Language Initiative in Mandarin Education)

Project CLIME is focused on developing a strategic initiative to promote a K-12 foreign language program within Utica Community Schools. The goal will be accomplished by establishing a grades K-6 partial immersion Mandarin program at Oakbrook Elementary School feeding into a 7-12 secondary target language program housed at Heritage Junior High School, Stevenson High School and the Utica Academy for International Studies.

### **Core Curriculum**

All the schools in Utica Community Schools offer students a comprehensive and rigorous academic program that meets and exceeds all state and federal standards. Our schools continue to follow the Michigan Grade Level Content Expectations (GLCE) and the Michigan High School Content Expectations (HSCE) and are aligning the expectations with the Common Core State Standards. These standards can be accessed on <http://www.macomb.k12.mi.us/utica/info/>. The district's vision document entitled Indicators of Excellence can be accessed at: <http://www.uticak12.org> under the district information tab, the annual reports link.

### **District Assessments**

Utica Community Schools not only looks at state assessments but we go above and beyond in monitoring the progress of our students. The following assessments are also given at each of the different levels to follow each student's academic progress.

**Michigan Literacy Progress Profile (MLPP)** is given in grades K-6 to assess students' progress in reading comprehension, phonics and fluency.

**Dynamic Indicators of Basic Early Literacy Skills (DIBELS)** is used in grades K-6 to monitor a student's reading growth on a more frequent basis. These assessments are quick snapshots of a child's improvement in literacy.

**EXPLORE** is a preliminary ACT assessment given to all ninth grade students in Utica Community Schools to help students prepare for high school coursework, higher education and ACT success. It assesses students' skills in English, reading, mathematics and science.

**Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT)**

The PSAT/NMSQT is a standardized test given to all 10<sup>th</sup> graders in Utica Community Schools. It measures a student's skills in the areas of critical reading, math problem-solving and writing skills. It also gives the student a chance as an 11<sup>th</sup> grader to take the test and possibly qualify for the National Merit Scholarship program.

**Parent/Teacher Conference Attendance**

Percentage 99%

We are pleased to provide this annual education report to our school community. The information contained in this report demonstrates our continued efforts to ensure every student achieves in our school. This report, however, only tells a small part of our success story. Every day our staff is continually finding new ways to enhance teaching and learning and engage our students in their education. We invite you to continue to be active participants in your child's education by volunteering in the classrooms, serving on our parent groups, and working closely at home with your students on their assignments.

Duncan Elementary is fortunate to be serviced by a community that cares so deeply about education. Thank you again for your continued support of our students and the Utica Community Schools.

Sincerely,  
Sharon A. Coil  
Principal
