-  All students that have attended West Utica for a full academic year will score 80 percent proficient in reading as measured by local assessments and/or MEAP data.

### West Utica Elementary School's Tier III Indicators:

West Utica Elementary School had a successful 2010-2011 school year. Students showed measurable growth in meeting the rigorous goals that staff set for student achievement, based on the UCS Indicators of Excellence School Improvement Plan and our school's Tier II goals. West Utica Elementary School's data teams utilized a variety of resources to analyze data, including DataDirector, MEAP summary reports, Golden Package, and district benchmark and classroom assessments. Teachers met on regular basis with the principal in grade-level data teams to analyze data and assist in planning classroom lessons and intervention strategies.

West Utica's reading scores have increased by as much as 9 % points in all grade levels except 5<sup>th</sup> grade. Over the past 5 years, Reading scores for the SES sub-group have declined in grades 3, 4, and 5. Reading scores for 6<sup>th</sup> grade SES students have fluctuated, however for the past 2 years they have remained stable at 90% proficient. We will

continue to monitor the reading success of our students and provide a plethora of research-based interventions for struggling students.

Over the past 3 years, Writing MEAP scores have remained stagnant. Our goal is to increase writing proficiency for all students, including our subgroups of black, special education, economically disadvantaged and male students who score proficient on writing assessments. West Utica will implement the Lucy Calkin's Units of Study and 6+1 Traits of Writing; this will increase students writing practice and exposure to exemplary writing.

Over the past five years in the area of mathematics our MEAP scores have increased by as much as 20 percentage points. Mathematics scores for the SES sub-group have increased in grades 3, 4, 5, and 6. Mathematics scores for Black sub-group have increased in grades 5 and 6. Mathematics scores for 3<sup>rd</sup> grade LEP sub-group (12) and 4<sup>th</sup> grade LEP sub-group (11) are 92% proficient. We will continue to implement instructional practices that are designed around the needs and aptitudes of the individual students to increase mathematics achievement.
