

# Roberts Bond Updates

ROBERTS ELEMENTARY PLAYGROUND

## SUMMER 2024

- Add corridor walls and doors in open-concept areas.
- Create additional layers of security, including replacement of door hardware and doors as needed.
- Install new playground equipment.
- Replace playground soft surface areas.
- Install electronic sign.

Thanks to our community, Roberts Elementary will be receiving a significant building upgrade this summer focused on safety.

The successful Safety and Success bond issue is providing for the addition of doors and walls to areas of our building where classrooms are not currently closed. This was a significant safety need identified as a priority by our community when the bond issue was overwhelmingly approved in May of 2023.

In addition, we are excited to introduce new playground equipment to ignite our children's imagination! It is focused on providing different ways to get our students moving and working together as they exercise to make physical activity fun!

These projects will begin as soon as school is out for the summer. The improvements are scheduled to be completed for the fall of 2024.

Thank you to our voters for making these improvements possible for our students. For more information and photo updates, visit: [www.uticak12.org/robertsbond](http://www.uticak12.org/robertsbond)

## BOARD OF EDUCATION
