

How are UCS Grade Point Averages Calculated?

1. Official GPA is calculated using final semester grades only. The high school GPA officially updates in January and June each year.
2. Using the table below, a GPA point value is assigned to each grade earned (A = 4.00, A- = 3.67, etc.).
3. For classes with an AP (Advanced Placement) or IB (International Baccalaureate) in the course title, the final column in the table below is used. Those courses receive a .50 GPA bump. Courses labeled Honors or Accelerated, do not receive the grade bump.
4. All GPA point values are added up and divided by the total number of grades.
