Dear Parent or Guardian,

Utica Community Schools is conducting an Elementary Report Card pilot this school year. A committee of teachers and administrators has created a new elementary report card designed to better inform parents on their child's academic development and performance. Your child's teacher is piloting this report card this school year. The new report card is directly tied to our district's UCS Empowered strategic plan. We remain committed to our district's mission to effectively partner with our parents to clearly communicate growth and our collaborative work to inspire remarkable achievement.

The report card is designed to indicate student's progress on grade level standards in the content areas of reading, writing, math, science, and social studies. In addition, the report card provides an identification of your child's stage of development for reading and writing. The stages of literacy development are included for your reference.

At conferences, your child's teacher will walk you through the new report card. Our hope is that this new report card will provide better insight into your child's academic performance over the course of the school year. Later this year, you will receive a survey to gather your opinion on this new report card. We look forward to hearing your thoughts and any suggestions for improvement.

If you have any questions, please feel free to contact me.

With thanks,

Mrs. Ciacchella

Building Administrator
