

Utica Community Schools
98c Grant Plan of Use Additional Items
Amended 5.10.2023

The original Utica Community Schools plan of use for 98c Learning Loss grant funds included items that generally fell into three categories: extended learning opportunities for students, enhanced AVID program in junior high and high schools, and professional development for staff. Keeping with those three original categories, additional items have been added to our plan.

They include the following:

- Summer school for students including teachers, paraprofessional support, materials, and transportation serving elementary, secondary, special education, and English as a Second Language
- Mind Research ST Math – a mathematics intervention for mathematics performance improvement
- REWARDS intermediate intervention for literacy performance improvement
- MASN Conference professional development for school nurses supporting district continuous improvement goals
- NWEA professional development supporting academic core instruction using data to enhance performance
