Heritage Junior High School had a successful 2018-2019 school year. Students showed measurable growth in meeting the rigorous goals that staff set for student achievement, based on the School Improvement Plan and our school's objectives.

Heritage Junior High School data teams utilized a variety of assessments to analyze data including state and classroom assessments. Teachers meet on a regular basis with the principal to analyze data and collaborate in planning classroom lessons and intervention strategies.

### **Key Challenges**

The staff at Heritage Junior High is committed to improving student achievement for all students. Our M-STEP student data indicates we must continue to focus on reading and mathematics. As the population at Heritage continues to become more diverse, we must adapt our teaching practices to meet the changing needs of all our students. Our English Learner and Economically Disadvantaged populations continue to increase while there are fewer resources to address these subgroups. Staff will continue to engage in quality professional development, differentiate instruction, provide additional support and build meaningful relationships with students, in order to effectively meet our students' varying needs in the classroom. Additionally, we will continue to analyze data to drive our instructional practices in the areas of most need.

### **Student Enrollment**

Students attend Heritage Junior High School based on the attendance area serviced within our school boundary. A number of Utica Community Schools' students in other attendance areas enroll in our school based on the district's open enrollment process and nonresident students may attend through the Schools of Choice program.

### **Specialty Programs**
