****Expanding File Folder**

****We recommend that the students use an expanding file folder like the one pictured above, however it is not required. We have discussed this with the students and shared an example in class. If your child will not be using this type of folder, they will need 3 or 4 subject folders.**

Thank you for purchasing these supplies, as **they are necessary** for assignments/activities and organization, and aide in your child's success this year. Remember that your child's desk space is limited. **Please keep in mind that as the school year goes on, your child will need a refill of some of their supplies as they are used up.** 😊
